

Medix

Ambulance Service

Dear Discovery Medical:

I am writing this letter to thank you for introducing us to your "Hands Free Hygiene Systems" that we have installed in our emergency vehicles. As you know we here at Medix always strive to provide the best in emergency service to our patients. In addition, we also want to provide our EMT's with the best protection available and we feel your products go a long way in addressing these issues. We feel your systems will help us to not only reduce cross contamination in the work place but also assist us to control any unnecessary costs.

When you first showed these units to us we were uncertain as to their reliability, but we were pleasantly surprised on how durable the systems were to every day operations in our different vehicles. We really like that you can manufacture the ES400, which is your smaller version, which helps us since we have very limited space available. We look forward to using your hands free systems in all areas of our business to help reduce any types of infections in the future.

Thank you for assisting us in accomplishing our goals to be the best emergency response team in Orange County.

Looking forward to a long-term relationship with Discovery Medical.

Sincerely Yours:

Josh Gordon
Assistant Operations Manager
